

# Ainuo

Exceeding & Trustworthy

## Ainuo Instrument Co.,Ltd.

## Company Introduction

Ainuo Intelligent Instrument company, a technology-based joint-equity enterprise, was established in 1993. We are engaging in R&D and manufacturing of electrical test equipments and industrial power supplies, and were located in the beautiful coastal city Qingdao and historic city Jinan separately. With prudent professional quality, we will provide accurate reliable products and service to improve the quality and efficiency of our customers. Ainuo mission is to be an enterprise with sense of responsibility.

There are mainly 8 products series: electrical safety comprehensive tester, electric motor comprehensive tester, power supply comprehensive test system, AC/DC power analyzer, AC/DC electronic load, AC/DC programmable power supply, medium-frequency power supply, airport ground power supply, etc. With the high quality and excellent service, our productions are widely used in the industries of household appliance, motor, electric tool, transformer, switching power supply, power adapter, lamp, LED lamp driver, photovoltaic module, inverter, communication, computer and other manufacturing enterprises, airport hangar, aerospace and aviation, ship and seaport, electric vehicles, nuclear energy and other special industries, as well as research institutions and Laboratories etc. Ainuo has set up the distribution service agencies in most countries.

“Exceeding & Trustworthy” is Ainuo people concept; “Take the road to innovation to build a century enterprise” is Ainuo people persistent pursuit.

### Some foreign customers

## Electrical Safety Test Solution

### ► Test Functions:

AC/DC Hipot  
Insulation Resistance  
Ground Bond

Leakage Current Leakage  
Arc Detect  
Open/Short Check

Low Voltage Start  
Run Parameters Test

Haier

SANYO

EPSON

Panasonic

TOSHIBA

FEDDERS CORPORATION

HITACHI  
Inspire the Next!

EÜPA

MTS GROUP

DAIKIN

ELECTRA

# ALL PRODUCTS OF THE COMPANY

## Safety products

Information-based safety comprehensive test system  
AN9652S(F)/ AN9652F(F)

Information-based safety comprehensive test system  
AN9651S(F)/ AN9651F(F)

Compatibility safety comprehensive tester  
AN9651TH(F)/ AN9652H(F)

Basic safety comprehensive tester  
AN9651B(F)/ AN9641B(F)

Compact safety comprehensive tester  
AN9640A(F)

Compact safety comprehensive tester  
AN9640B(F)

Safety comprehensive analyzer  
AN9638H(F)/AN9637H(F)

## AC power-supply

Programmable AC power-supply  
AN61 series

Programmable frequency conversion power-supply  
ANFP series

frequency conversion power supply  
AN97 three-phase output

400Hz GPU  
AN17V3 series

400Hz GPU  
AN17FV4 series

wideband frequency conversion power supply  
AN47 series

## DC power supply

DC Testing power supply  
AN58 series

DC power supply  
AN57X 00 series

DC power supply  
AN57X05 series

DC power supply  
AN57X10 series

Photovoltaic simulated power supply  
AN570S series

DC power supply  
AN50X02 series

## Power supply tester

Power supply auto test system  
AN80 series

LED power supply auto test system  
AN8063

Module power supply auto test system  
AN8065

Inverter auto auto test system  
AN8067

Multi-channel timing&ripple tester  
AN80051

Switching power supply auto test system  
AN80016

LED simulated electronic load  
AN23 series

## Motor tester

Stator comprehensive tester  
AN96951A(F)

Motor comprehensive tester  
AN96950A(F)

PG motor tester  
AN969-PG(F)

AN96953 Single/3 phase motor tester  
AN96953(F)

Impulse winding voltage tester  
AN9691H(F)/AN9692H(F)

DC low resistance tester  
AN83025(F)
